

Physical Models of Living Matters - The 3rd Symposium of Physical Biology and Biological Physics

Friday 30 August 2024

Session I - 205 Meeting Room (13:30 - 15:10)

-Conveners: Keng-hui Lin

time	[id] title	presenter
13:30	[4] The resilience and diversification of mechanical stress management during morphogenesis	Prof. WANG, Yu-chiun
14:00	[5] Mechanosensitive regulation of integrin beta6 mediated adhesion	YU, Cheng-han
14:20	[6] Phase separation promotes receptor clustering and downstream signaling	Prof. CASE, Lindsay
14:50	[35] Wavy Morphology Regulates Cell Structure, Migration, and Phenotype	Prof. CHAO, Grace Pen-hsiu
