

Physical Models of Living Matters - The 3rd Symposium of Physical Biology and Biological Physics

Saturday 31 August 2024

Session VI (16:20 - 19:00)

-Conveners: Tai-De Li

time	[id] title	presenter
16:30	[7] Assembly at Aqueous Phase-separating Systems	Prof. SHUM, Anderson
17:00	[20] BAR protein SNX9 mediates actin assembly at saddle-shaped membranes	TSAI, Feng-ching
17:20	[32] Through the Computational Lens: Exploring Abeta42 Monomer Diffusion on Diverse Fibril Structures	Prof. TSAI, Min-yeh
17:40	[24] Membrane curvature induces integrin activation and mechanotransduction	Prof. CUI, Bianxiao
18:10	[40] Characterization of Megadalton Maldi ions with linear ion trap mass spectrometer	Prof. PENG, Wen Ping
