

**Session Program**

18-19 May 2026

**GW-CMB 2026**

***Session 3: New Probes of the Hubble  
Constant using GW Dark Sirens and  
Clustering redshift (Chair: Keiichi Umetsu)***

National Central University

## Tuesday 19 May

10:00

**Session 3: New Probes of the Hubble Constant using GW Dark Sirens and Clustering redshift (Chair: Keiichi Umetsu): Summary Talk: Clustering Redshifts for  $H_0$  with SNe Ia and GW Dark Sirens**

**Session** | **Location:** National Central University | **Convener:** Yi-Kuan Chiang

10:30

10:30

**Session 3: New Probes of the Hubble Constant using GW Dark Sirens and Clustering redshift (Chair: Keiichi Umetsu): Contributed talk**

**Session** | **Location:** National Central University | **Convener:** Teppei Okumura

11:00

11:00

**Session 3: New Probes of the Hubble Constant using GW Dark Sirens and Clustering redshift (Chair: Keiichi Umetsu): Contributed talk**

**Session** | **Location:** National Central University | **Convener:** Kin-Wang Ng

11:30
