

Session Program

17-31 Aug 2026

**CHiP International Gravitational Wave
Summer School 2026**

Lecture

Monday 17 August

13:10

14:10

Lecture: LIGO and Gravitational Wave Science (Yuki Inoue)

Session | Location:

Tuesday 18 August

13:30

14:30

Lecture: Einstein Telescope and laser science (Vaishali Adya)

Session | Location:

Wednesday 19 August

13:30

14:30

Lecture: CHRONOS and Sensitivity (Mario Onglao)

Session | Location:

Thursday 20 August

12:30

13:30

Lecture: Landscape of Stochastic Background (Yuki Inoue)

Session | Location:

Friday 21 August

13:30

14:30

Lecture: Simons Observatory and CMB science (Masashi Hazumi)

Session | Location:

Monday 24 August

13:30

14:30

Lecture: Feedback theory (Daiki Tanabe)

Session | Location:

Tuesday 25 August

13:30

14:30

Lecture: Calibration and Reconstruction (Mario Onglao)

Session | Location:
