Institute of Physics, Academia Sinica

Scientific Programme

The scientific program includes the following sessions:

Nonlinear optics

Nonlinear and nonreciprocal transport effects

Magnetic topological systems

Superconducting diode effect and strongly correlated systems

The scientific program will take place from 9 am on June 12th (Wednesday) to 12 pm on June 14th (Friday), followed by a half-day excursion in the afternoon. The downloadable timetable can be found at this link; the detailed program will be announced later.
